

August 2020

Next Board Meeting

September 2020

From the Presidents Pen

Hello to All !

Well to say the least it's a crazy world that were living in these days with Covid 19.

As many of you are aware we are setting records here in Lake Havasu with the number of visitors that we are receiving.

Not just on the weekends but also weekdays with so many out of work and only 4 1/2 to 5 1/2 hours away from California it's an easy trip to make.

Vacation Rentals are off the charts and if you can find one, then you're the lucky one.

I can report progress down at Partners Point which is where our Volunteers spend the majority of our time putting together the Habitat that we build for the Fisheries Program.

The road to Partners point is now paved!! See the photo!

I have also learned from BLM that Major improvements to the property are on the way. Will have more details in next month's News Letter.

Regarding the startup of the program in the fall is still on the table without a date due to the unknown, like where will we be with Covid 19.

If I hear anything between now and next month I will be happy to share!

Until next month everyone stay safe out there and do what you feel is right!

Onward We Go!!

All the best, Rod

From the Vice Presidents Desk

There isn't much to write about since everything is pretty much shut down due to the virus hopefully it will be over before much longer. It seems sometimes being closed helps speed up progress, like getting the road paved into partners point and some of the other improvements that are being made out there, maybe some of the improvements will make it nicer and better for the volunteers working on the habitat.

Does anyone have a suggestion for a column in the newsletter to fill up the space Daves tackle tips used to use? I thought of a recipe corner, would anyone be interested in sharing favorite recipes or tips on cooking for those of us who could use a little help? Or possibly writing a little column with helpful info. Let me know, I'm always looking for new ideas and can use a little help.

Thanks and please stay safe and healthy.
