

December 2020

Next Board Meeting

**Time and place to be
determined**

From the Presidents Pen

Partners Point Update:

Big changes to be made to Partners point as we know it. There is a 2.2 Million dollar renovation that will begin to take place this month.

The existing building known as Volunteer Hall will be replaced with a new and up to date structure.

At our last board meeting our Board members collected the many years of memorabilia that covered the walls and have placed them in storage.

Upon completion of the new building there will be an area that we can display our items showing the history of Anglers United.

The existing shade structure where we build our Brush Bundle's will be replaced with a new building.

There will be two new additional buildings constructed for additional storage of Boats, Equipment and supplies.

Start up?

We are still on hold. When we get the green light to get started we will assess the landscape and set up a temporary area and get back to work.

Swap meet:

At the Last board meeting we addressed the short supply of vendors and general public attending the swap meet due to Covid.

It is estimated that 60% of our snow birds are from Canada. With the boarder remaining closed we don't expect this situation to change.

The board discussed the cost associated and the concerns that were expressed from members and Covid Exposure.

At this time we have decided to discontinue our activity at the swap meet. We were able to receive a refund for the balance of the year.

If things change in the near future we will have the ability to start back up.

BLM:

Just a heads up:

During a conference call with all Partners, Zach Salada announced that he would be leaving the Havasu area and relocating to Idaho for a new position that he had requested.

Wishing Zach all the best.

Wishing everyone a Merry Christmas and a Happy Holiday to all!

Rod Hatchell

From the Vice Presidents Desk

Anglers United finally had a board meeting, as you can see we kept it outdoors and used safe covid 19 practices for everyone's safety. We had a very productive meeting after what seems like a year since we got together. One thing we decided on was to cancel our spot at the swap meet this season due to Covid and lack of customers visiting the swap meet. I want to thank everyone who volunteered to help this season, we may be calling on you for help with other projects in the future.

Thanks Gary Visconti for the fish pictures and the information on the fishing conditions on the lake I bet it was fun reeling in that carp and those catfish, maybe Gary will give us a little fishing advice in the newsletter now and then.

I am still looking for the fishermen and women in Anglers to send photos of their catch and advice for those of us who cant seem to catch any thing except a weed of two.

Have a very Merry Christmas and a better and happier New Year

Fishing Update

November 2020

Even with everything going on, there are a few of us getting out on the lake and enjoying some sun and fishing. Everett Rochelle my fishing buddy has moved to New Mexico due to his wife's illness and will be missed. Jim Hatter has been teaching me how to fish for carp, (yes carp) and we have been doing really well as you can see from the pictures, mine weighed 30 pounds.

Jim is a great teacher having fished all over the country for these fish. We tried smoking some meat.....think I'll stick with salmon. We have also been catching redear/bluegill and stripers with a catfish every now and then. Al Withall has been catching some nice stripers. Frank caught this nice redear which if the girth was bigger could have weighted 3 to 4 lbs. The water is cooling down now so the shad will be showing up more making the striper bite better.

Everyone Be Safe

Gary Visconti
